

Gary Boushelle

*MidMichigan Health Services
Houghton Lake, MI*

I moved to Roscommon back in 1976 when I was working for the State of Michigan as a wildlife biologist. This job required me to move around a lot, and I often lived in remote areas. When I came to Roscommon I didn't have a physician. Soon after I moved, I had a chainsaw accident and couldn't find health care, even with the health insurance that I had through the state. Someone told me about MidMichigan Health Services. They took care of me and I've been a patient ever since.

I like the comfort of the facility and the staff. The support staff has a lot of longevity. Although I've not had a lot of medical issues, my needs have always been taken care of appropriately.

In 1984 a nurse at the Health Center suggested that I join the Board of Directors. Today I am the longest serving board member, and I served as the chair at one time. Being a board member has been a second career for me. I have a big interest in the health of our community, and enjoy interaction with organizations and other individuals. I can add to the board from a layman's point of view the health care needs of the community.
